Week 1 Report – 20/07/2021:

Proposed ideas for Minor project:

- 1) College Automation system.
- 2) Brain tumor detection using MRI images and machine learning.
- 3) Timetable Generator.
- 4) Faculty & student attendance system using QR / Barcode scanning.
- 5) Department newsletter generator.

Out of these, after thorough discussion between group members and project guide, **Department Newsletter Generator** was finalized as the project topic.
